## Beach Erosion Hearing on Jones Inlet Project

by O. A. McKegney

A hearing was held before the Civil Functions Committee of the United States Senate on July 17, 1951 on the Jones Inlet project. The purpose of the hearing was to consider enactment of legislation appropriating Federal funds for the construction of a jetty at the east end of Jones Beach and for a contract to dredge a channel through Short Beach to the ocean. The project was recommended by the Army Engineers in 1941 as the most effective method of stabilizing Jones Inlet. It is believed that the jetty from the east end of Jones Beach will have the effect of preventing any further erosion at Point Lookout. It is also believed that the channel through Short Beach will relieve the pressure now exerted by the present channel and the rush of water along the east end of Point Lookout which constantly threatens destruction of the rock wall.

If Congress enacts legislation to appropriate funds the local authorities, State, County, and Town, will immediately start the project which it is estimated will take between one and two years to complete.

A delegation appeared at the Senate hearing in support of the proposed legislation for appropriations. The delegation consisted of Robert Doxsee, President of the Civic Association of Point Lookout, Hon. S. Samuel DiFalco, Harry Barrata, and Osborne A. McKegney, counsel to the Civic Association of Point Lookout. The delegation also included: Hon. Holly Patterson, Chairman of the Town Board of the Town of Hempstead, and Hon. Leonard Hall, the Congressman in whose district Point Lookout is located.

Through the efforts of Judge DiFalco, Hon. Herbert H. Lehman personally appeared at the hearing and sponsored the legislation and requested the Senate Committee to give it favorable consideration. Hon. Irving Ives, the Senior Senator from New York, likewise appeared as he did on a prior occasion and argued in support of the legislation.

The case was then fully and forcefully presented by Congressman Hall and seemed to obtain the approval of Hon. Kenneth McKellar, Senator from Tennessee, who is Chairman of the Committee. Whether or not the legislation will be passed is still problematical. The strongest hurdle to be overcome in obtaining the legislation is the present economy program which seeks to limit and curtail the expenditure of Federal funds. On the other hand, the Kansas Flood and the damage resulting therefrom which occurred just prior to the hearing is a factor

which strongly supports the legislation.

Prior to attending the hearing petitions signed by approximately 1,000 property owners of Pt. Lookout were prepared and submitted to the Senate Committee by Senator Lehman. In addition, a Memorandum by counsel to the Civic Association was also submitted to the Senate Committee. The Memorandum recited the history of the loss of property at Point Lookout, the recent inroads of the ocean, and close approach to private property and the public streets within the last few months. The Memorandum also referred to the Kansas City flood as an example of the results of delaying necessary action too long.

## Fire Company Notes

By now you all know that the Fire Company made a drive for funds during the month of July, and we hope you all contributed generously to this most important activity. Both owners and tenants must appreciate the necessity of maintaining the company and its equipment at a high standard.

If by chance you were not called upon, or were absent from the Point during the period of the drive, please send in your check to the Fire Company. There will be no Bazaar this summer, and this is the one appeal that will be made.

The company is sponsoring an exciting Square and Folk dance at the Fire Hall each Friday night during the season. Bill Henrickson calls the dances, and a good time is enjoyed by those present. However, the attendance seems to be slackening, so plan to drop in and join the fun on Friday nights.

There will be an election for 2nd lieutenant at next meeting, - the candidates being Charles Stephani and James Slavin.

During July the Fire Company entertained the Nassau County Chiefs' Council of the South Shore and 2nd Battalion at the Fire Hall.

The story of the "Sea Gull" Tournament team is told in another column, but this is a good place to remind you that you should try to turn out and root for our boys at these events.

## Civic Association Notes

by Frank Buckbee, Secretary

President Doxsee began with a moment of silence in respect to the members who had passed away during the winter.

The Point Lookout Civic Association held a well-attended meeting on June 29th, President Robert L. Doxsee presiding. The chairman of the Beach Committee, Joseph F. Dooley, presented a report on bathing beach conditions. He spoke of the danger recently occasioned by someone firing a rifle at the rest rooms. He asked all residents to report to the police or the Association in confidence any one who might be suspected of committing such an act.

President Doxsee gave a detailed account of the efforts that have been made during the winter to secure Federal aid for the protection of the inlet, including several visits to Washington and meetings with government officials, and of the staunch support received from the Town and County authorities, - our senators, congressmen and others, - also of the efforts being made to obtain State aid, and of the splendid work the town has already done.

Counsellor McKegney reviewed all the Little Actions and outlined their present status, and the future steps contemplated in an endeavor to safeguard the rights of the community to the beach. After routine reports the meeting adjourned.

## The Sea Gulls

Point Lookout Sea Gulls, the tournament team of the Fire Company, have been in three tournaments. The first at St. James, June 20th, - the second at Hempstead, July 4th and the third at Island Park where the Sea Gulls took 3rd place in running Hook and Ladder. You would have enjoyed seeing the bucket brigade. We looked like a bunch of "almost drowned" Sea Gulls. Needless to say we were very proud of our Trophy and thoroughly enjoyed the Block Party and dancing later in the evening.

Our next Tournament will be July 28th at Lindenhurst. See Captain Kenny Burgess or Asst. Captain Harvey Getler for Booster tickets.

—Joe Larney.

## Rev. F. H. Hoffmann's Column

Glorious! fine sunny weather, has been our fortune this last month. During the month of June we had too much rain, and the weather was cold, but July has been just wonderful. In fact, there has been excellent sun-bathing all month. Oh, there were a few occasional thunder storms, but let us not think of those. If I remember correctly, they probably came during the night. This fine weather, of course, is a great determining factor for sales in our local stores as well as a booster to church attendance. The finer the weather, the more people at the Point, the happier merchants and ministers.

### JULY HIGHLIGHTS AT PT. LOOKOUT COMMUNITY CHURCH

June was a fine busy month, but July seems to have been even better. On Sunday, July 8th, we dedicated our new hymnals, (The Christian Worship Hymnal). These hymnals were bought by individual members of the church and presented to the church. Each member had an opportunity to give two books but no more. This "no more" aroused a grave question in the minds of the members of our Board of Trustees, as to whether we would come anywhere near our required quota. Worse than that, the music committee recommended the drive to be completed within two months. After some debating as to the feasibility of this idea, the Board accepted the recommendation. The music committee is very happy to announce that the members of the church have responded with unusual enthusiasm. The church has gone beyond the quota and we now have sufficient books.

A special thanks goes to our Church Clerk, Mr. Arthur Neppel for keeping an accurate record of all names and donations; to Mr. Fred Shephard, Jr., for individually stamping each hymnal in gold, and to Messrs. Fritz Wilkinson and William C. Schoenfeld who assisted me graciously in the choice of a hymnal as well as in launching the drive.

### ANNUAL CHURCH MEETING

Different from previous years, our annual meeting was this year held on the second Wednesday in July,

rather than on the first Sunday. Also the time was changed from immediately after the Worship Service to an evening meeting. A very fine group was present, and as each member entered the church he received a 1950-1951 YEAR BOOK. In it were recorded the positive and negative events as the occurred during the year, also an excellent financial statement by our financial secretary, Mr. Ted Bartlett. This is the first time the church has ever had such a complete account of its activities. A hearty thanks goes to Mary Miller and Mrs. Hoffmann who assisted me so gallantly at compiling it. Although some of the reports came in on the last day, we were able to have the book completed 15 minutes before the church met. There are still a few of these Year Books available to interested members. You may have a copy for the asking.

### PINS AWARDED BY OUR CHURCH SCHOOL

On Sunday July 15th our Church School, under the leadership of Mrs. James A. Fulton presented 25 to 30 pupils with perfect attendance pins. This is a most unusual showing for so small a church. About fifty percent of the enrolled pupils have not missed Church School more than twice this year without a legitimate excuse. This is even more significant in view of the fact that a "Saturday" or "Sunday Morning" illness is not considered an excuse for staying away from Church School. Our superintendent and our teachers deserve a great deal of credit for holding the interest of these many youngsters. Thanks also goes to Mr. Rolf Samson, Sr., who has been most conscientious in playing the piano for the junior department.

### ERNIE BRYNER BELFRY TO BE BUILT SOON

Your Pastor has it on good authority that by the time you read this column the Ernie Bryner Belfry will be in the building stage. Mr. Andrew G. Kunz and his committee are planning to have it erected in time for dedication by the time Ernie's birthday comes around late in August.

### GUEST ORGANIST AND SOLISTS AT CHURCH

Our music committee is happy to announce that we are going to have two guest organists to relieve Messrs. Fritz Wilkinson and William C. Schoenfeld during part of the summer months. Dr. T. Frederick H. Candlyn, organist of the St. Thomas Episcopal Church in New York City, will play on July 29th and August 12th. Mr. Rolf Samson Sr., who is helping so ably in our Church School will play on August 5th and August 19th.

Solists scheduled to sing for us in August and in the early part of September are: Dorothy Sternberg, Point Lookout, L.I.; Elizabeth Tuers, Nutley, N.J.; Jean Schoenfeld, Lido Beach, L.I.; Mrs. John Fernandez, Point Lookout, L.I.; and Mrs. Wesley Smitten of East Hempstead, L.I., N. Y.

We are anxiously looking forward to hearing you this summer.

FOR SALE—Electric "Thor" Washing Machine. Phone or call on Mrs. A.J. Neppel, 37 Beech St., L.B. 6-5879-W.

## The Square Club

by Art Neppel, Pres.

There was a swell turnout at our regular meeting on Friday, July 13th. As expected, now that the summer season is in full swing, several members whom we have not had the pleasure of welcoming since last fall, made their appearance.

To all of you who will be departing again in September, all I can say is that no one will be to blame but yourselves if you do not take full advantage of the busy program your officers have lined up, every bit of it designed to afford you plenty of congeniality and good times. Make the best of it because the time is so short.

Those of the members who partook of the outdoor party at Ernie Davis' place on July 20th will not have to be coaxed to attend the encore on Friday August 24th. Those of you who unfortunately couldn't make it, - remember that date, - Friday, August 24th.

Another date to remember is August 17th. That's the day of the Dinner-Dance over at the South Shore Yacht Club in Freeport, which you will also find mentioned elsewhere in this issue.

All reservations for the Dinner-Dance must be in by the time of our next regular meeting on Friday, August 10th. Please remember all of these dates. We'll be looking forward to seeing you.

## Square Club Party

On Friday evening, July 20th, a most enjoyable party was held on the Bayside at the residence of Mr. Ernie Davis. About thirty members and guests of the Square Club met for a weenie roast under a perfect evening sky. Ernie had strung colored lights about the spacious grounds, and a evening of good fellowship was enjoyed by all.

Members present were Gus Henning, Charles Gracy, Fred Nueske, Bill Behrens, Doc Babenzian, Norm Derby, Ernie Davis, Pete Ferreri, Ralph Gilbert Lew Monninger, Bob Olsen, Fred Shephard, Ewald Sternberg, George Zinn, Herb Ulph, and Art Neppel. The fortunate guests were Hal Gates, Mel Geisler, George oGldie, Rev. Hoffmann Andy Stirn, Al Feldman, Fred Bartlett, Fritz Wilkinson, Ernie Davis, Jr. and Charles Lemke.

There will be another similar party late in August.

## Editorial

Here is midsummer. It is the time that Point Lookout has the maximum of population, and we welcome them all to enjoy the beautiful advantages of our place of living. BUT there are certain amenities that rest on all of us to make it a pleasure. As editor we hear so many criticisms. Dogs are an old story to our readers, but they still pose a problem to residents and visitors alike. Keep your pets under control.

Also we heard from an unknown telephone caller that she objected to the fact that people hung out their wash on Sundays. This may seem like a minor problem, and the only answer we could give was that the use of washing machines made washing so easy on a clear day. Well, we pass the idea along. Some of your neighbors object to washing being hung out on Sundays.

A lot of people are down here for a vacation, which means a time for relaxation. Those of you who have small children should bear in mind that many of your neighbors like to sleep late in the morning, so why not keep the youngsters from yelling so loudly in the morning.

Well, this is all the gripes we have heard this month, and we hope it is all we will have to report the rest of the year.

Mid-summer. It has been rather a nice summer on the whole, although the weather couldn't be called ideal. Let's hope the remainder will be as good. Still seeing people fussing with their gardens, and the beach has had its quota of visitors.

The big issue now is the action likely to be taken by the Congress on the dire need for funds to protect Jones Inlet, and all efforts are being made to bring this about. May this work be started soon.

The next celebration will be the children's day on the beach - Labor Day, and then thoughts of school opening. Time sure does fly.

### ACKNOWLEDGEMENTS

A donation of \$5.00 from Mrs. J. J. Hill of Zanesville, Ohio, she says she enjoys it very much and shares it with all her relatives and friends. Many thanks for those kind words, and the donation.

Mrs. Martha Gilliland, for \$2.00, of Richmond Hill, N. Y. who also likes our efforts.

A donation of \$10 to the Community Outlook from Mary G. Cutter, with many thanks.

A donation of \$2.00 from "A Happy Reader".

A donation of \$5.00 from Ann Rantsche.

Gratefully acknowledging a donation of \$5.00 to the Community Outlook from Mrs. Ida Attanasio of Lynchburg, Virginia.

## A Song of Friendship

Point Lookout has been here a long time. Up to now the Point did not have an official song. Now it has one. Have you heard (and who hasn't) the very catchy words and music written by Maestro Menotti Salta? We can not print the music in this article, but here are the words.

MENOTTI SALTA

Whenever winter is leaving and summer comes on it's way

Here's where you always will find us, singing together to say

Point Lookout, Point Lookout, you are a dream in the ocean

Where the cares of the day lightly vanish away

Warmhearted friends make you feel young and gay

Point Lookout, Point Lookout, you're a corner of heaven

In sand and the sun we can all be as one here in Point Lookout.

Inspired by a feeling of brotherhood, Maestro Salta recognizing how well people of different racial strains and religions live at the Point, in a feeling of harmony, composed this catchy tune to capture and put into words and music those ideals.

Maestro Salta, famous in international musical circles, well known here at the Point, the past six summers at 109 Garden City Avenue.

## The Younger Teens of the Point

The younger teens of the Point have had a very full schedule. The schedule started out with Michael Zail's party. It then followed to a dance and bowling. The dance was at the Fire Hall and the bowling at View Inn.

It then was my party that was on the 13th of July and on the 14th came Tony DiFalco's. The next was Pete Murphy's.

We also have basketball on Mondays, Tuesdays, Thursdays and Fridays. On Monday and Wednesday we have practice for a minstrel show that is being given by Father Butler. We have a full schedule, don't you think so,

—Kathleen Aaron.

## Old Timers Tale

by Tom Dier

The summer of 1920 was very hot and one day in August there was a big crowd visiting the Beach. In the afternoon they started back and all wanted to be first to get on the ferry boat. It was low tide. The gangway gave way and about twenty of them went into the water.

One of the residents was all dressed up because he was going to the city. He fell in and in getting out he picked up a little boy out of the water. I heard the commotion and started for the dock. The man was coming up the walk with the little boy in his arms.

He said, "Tom, take care of the kid, as I have to go back to the house and change my clothes". He did not go to the city that day. I took the boy and dried him and took him home as his folks lived near by.

No one was hurt and they all got aboard the boat to go to Freeport in their wet clothes. The little boy is a big man now and is living here in Glenwood Avenue. The man who took him out of the water visits here once a year, and he always talks about the wetting he got.

### 2nd BIRTHDAY

Frank Howard's son John celebrated his 2nd birthday on July 19th. Frank is the genial new bartender at the Tap Room.

### VISITING IRELAND

Mrs. James Naylor and her two children are visiting Mrs. Naylor's mother, Mrs. Nora Corbett in Limerick City, Ireland. Mrs. Naylor plans to return to Point Lookout about October 1st.

**Facts on the Len Little Case**

The above case was tried before Judge Cortland A. Johnson, Supreme Court, Mineola, on December 14th, 1950. Summons and Complaint was served on Leonard Little by certain faction at the Point at Civic Association meeting in July, 1950, with a great deal of noise and ceremony.

Mr. Hurley, attorney, of Mineola, drew the complaint containing 5 causes of action.

The court record shows that no one representing the Civic Association or Taxpayers appeared at the trial on the above date. This fact cannot be denied. The case was tried in behalf of one Constance Hurley, not a resident of the Point, and Mr. and Mrs. M. Scolaro, residents of the Point. Little defeated 4 causes of action of complaint against him in the decision of Judge Johnson on February 23rd, 1951.

Little appealed the remaining cause of action which gave right of access to the beach to Hurley and Scolaro. No right of access was given to the Taxpayers. Therefore, no victory for them.

The decision by the Appellate Division on June 26 upheld Little's contention to deny right of access to the beach over his property by the two lot owners on the ocean front. Court said, in part, Little has absolute right to any use of his beach without implication of easement to anyone. P. J. Nolan, Adel, Sneed and Wenzel, JJ., concurred. Carswell, J., dissented. A 4 to 1 decision in favor of Little on the easement.

**GERRY MATTES BAKER**

Many, many of our friends at the Point, both summer and winter residents, have missed seeing Gerry with her bright smile on our beach and have been profoundly shocked to hear of her death after a four month illness. Gerry died on May 27th and funeral service were held in the Queen of the Most Holy Rosary in Roosevelt with interment in the Holy Rood Cemetery in Westbury. We all wish to express our deepest sympathy to her husband, George Baker, her mother and father, Mr. and Mrs. George Mattes and her very beautiful little daughter, Joan Marie.

**DECEASED**

The sad news of the passing of Mrs. Muriel Mazzei on Saturday, July 21st came as a great shock to the community. She was so deservedly popular and well-liked by everyone who knew her.

Our deepest sympathy to Pete Mazzei, Jimmy and Yvonne in their great loss.

## News for the Outlook

Cadet Robert G. Bartlett wrote - "On June 10th, the Cadets of the Class of 1953, U.S. Military Academy, began three weeks tour of the Air Force Bases which included Langley Air Force Base, Va., Selfridge Air Force Base in Michigan, Pope Air Force Base and Fort Bragg, North Carolina, Warner-Robbins Air Force Base in Georgia, and Mitchell Air Force Base and Eglin Air Force Base, both in Florida. At Fort Bragg, the cadets received preliminary airborne training. The major aim of the trip was to become indoctrinated with the workings and functioning of the Air Force.

Word has been received from the John Kellys of Parkside Drive that on July 12th they were in St. Augustine, Florida. They were riding down the Florida coast and enjoying it very much.

### LOST

If anyone has seen or know of anyone who has seen a Ronson lighter with "Betty" engraved on it, please notify Betty Bartlett of 65 Baldwin Avenue. It was lost somewhere in the vicinity of Baldwin Avenue or Parkside Drive. The lighter is of great sentimental value to Betty so please notify her if you know anything about it. Thank you.

### HAPPY BIRTHDAYS

To George Howard, Helen Engel, Lu Goldie, George McPhillips, and probably many others who we have not heard about.

Mrs. Doris Samson McIntyre and her sister Claire Samson celebrated their joint birthdays on June 30th with a well-attended house party.

### JOE BSCHORR, JR.

Mr. Joseph Bschorr, Jr., his smiling Irish wife and their 10 year old son are visiting the Point and staying at the home of our smiling butcher, Joe Sr. They are on a vacation from their home in Dayton.

Joe, Jr. spent almost 35 years at the Point and still says he enjoys the air. He remembers when Point Lookout really had a beach, and even the long ago days when he delivered Ice for Tom Dier.

### LOST, STRAYED OR - -

Joan Pavlick reports that her little Siamese kitten is away from home and is very much missed. The kitten probably strayed and has been picked up by some kindly neighbor. It is light tan in body color with a dark tan nose and ears. There is a REWARD offered for its return. Please contact Joan at Al Pavlicks store on the boulevard.

### VISITORS

Agnes and Michael Nevaday (Whitey) visited at the Point recently and stayed a few days. They are now living in Beacon, New York.

### ENGAGEMENT

Announcement has been made of the engagement of Miss Betty Langan, daughter of Mrs. Elizabeth Langan of West Hempstead to Calvin Boise, son of Mr. and Mrs. Frank Boise of Point Lookout. Miss Langan was graduated from Long Beach High School and Cazenovia College. She is with the Liberty Mutual Life Insurance Co. Lynbrook. Mr. Boise was graduated from Long Beach High School and attended Pace College. He is with the Standard Oil Company, New York City.

## About Folks

by B. J. Mellon

We hope that all of our neighbors have done what they could best afford for our firemen who have called at each home asking for donations this summer . . . We doubt that any community has a harder working or more co-operative group of men who conscientiously answer every call no matter what time of day or night . . . It was on June 24th that our Fire Department was called out to look for a little girl who had strayed from the beach near Lido. She disappeared around 10:00 a.m. and it was not until 6:00 that evening that a very tired and frightened little person was found by our Bebe Kelly near the section which was known as Tent City during the War . . . Mighty happy to report that George Collins is back at his home on Mineola Ave. recuperating nicely after his long stay at Mercy Hospital . . . Also on the list of those getting well in short order is Lillian Felix who recently underwent another operation in Long Beach Hospital . . . We shall be missing Mrs. Anne McKegney and her son Brian who have left for a vacation trip to California and Mexico . . . There are few who deserve a vacation more than this busy young matron for her winters are most busy with many charitable hours spent at the New York Foundling Home, plus her duties as one of the hostesses at the Gotham Dances held each winter . . . It's so nice to see Muriel Murphy back home after her operation . . . Her son Larry assures us that he is taking very good care of his mother . . . We don't think that there are any prouder grandmother's around here than Mrs. Joseph Nagle of Lido Blvd. and Lynbrook . . . Her daughter, and son-in-law Mr. and Mrs. Maugher have one of the prettiest baby girls we have seen in a long time . . . Another of our residents who is enjoying a very well-earned vacation is Hilda Bryner who is on a month's cruise up Nova Scotia way . . . Seems young Ronald Hill of Lynbrook Avenue was in such a hurry to see all of those gleaming fire engines in our Fourth of July Parade that he slipped and fell on the brick steps of his house causing a cut bad enough to necessitate four stitches which were promptly sewn by Dr. Sokolowicz . . . The patient is in fine shape now . . . A fine way Susan and Mary Lynn Lechler have of welcoming a new sister . . . They both came down with measles shortly after Bea returned home with the new baby . . . We trust that the Lechler household will soon be on even keel again . . . All of Mrs. Antanasio's friends, especially those of the Community Church Ladies Guild, were so very glad to see her back at the Point where she was the guest of Mrs. Straus . . . Mrs. A is always an honored guest at the Guild's annual card party . . . Reports have reached us that the 'Bird Club' of Point Lookout which is comprised of some 15 ladies who reside generally in the Lynbrook Ave. - Beech St. area have taken their annual cruise . . . From all accounts Captain of the ship was a most accomodating (and rugged) individual who no doubt breathed a huge sigh of relief when the final

passenger disembarked . . . Never do know what those ladies are going to do next . . . From the same news source, we also hear that Jimmy and Florence Cullen had as their guests on a cruise to Fire Island, the Frank Barry's and the Tom Walsh's . . . Seems that Frank was dressed as Esquire's dream of a yachman while Tom looked a bit more like a mutineer fresh off the Mounty . . . Florence would have passed Vogue's strictest test and Nellie could have taken over Tugboat Annie's role without much re-arrangement of attire . . . It is suggested that the seafood epicureans among us consult with the LADIES of this little group when desirous of learning where to go in the Bayshore - Fire Island area of the Great South Bay for the best in mollusks and crustaceans . . . Seems the men prefer such plebian foods as eggs and bacon . . . And we have no doubt that Tom Walsh would strongly recommend that all those who love cake and plan a cruise provide a secret cache aboard for their favorite desert . . . In order to enlighten some of our readers regarding the above recommendations, it seems this party docked at Fire Island early in the evening and the men assured their respective wives that they had found the ideal spot serving delicious seafood . . . but it was a bit early and how about a sail over to Bayshore first. A fine idea all agreed . . . However, while in Bayshore the ladies found a fine place with delicious clams and proceeded to un-whet their appetites in spite of the remonstrances of the men whose mouths were fairly watering at the thought of the menu they had seen at Fire Island . . . To bring this tale to its sad conclusion . . . There was no more seafood when they returned to Fire Island . . . Just eggs and such . . . Not even any of the luscious desserts Tom had been looking forward to, but then he remembered a chocolate cake aboard the boat . . . The tale gets sadder . . . Florence Cullen had finished the cake . . . It's so nice to welcome Ralph Vail's mother and brother Herman who are spending the month of July in the Vail's apartment . . . with them are Ivy and Albert Thompson whom we are always glad to see . . .

## A Lesson

Don't strike that match!  
For there is no bolt or latch  
From which fire can not escape,  
And cause a disastrous fate.  
Although maybe that last fire  
Was caused by a faulty wire.

II

Or by a leak in the pipe  
Where the gas escaped at night.  
Although it caused no alarm  
Until the match did the harm.  
While an unclean cellar paves the way  
For a spectacular fire some day.

III

Matches certainly are blessings in disguise  
When used by the wise.  
But if not a necessity to strike  
Remember that which is right.  
For house after house may fall,  
As flames shown no consideration at all.

## SALVATION ARMY FUND DRIVE

A Town Committee is being formed to lead the Salvation Army fund drive sometime in August. So far Herbert Muller of Bayside Drive has been appointed Chairman and the Committee is being formed. Lucille Goldie has accepted the position of Treasurer. We all realize and appreciate the fine work of this organization in the care of the needy of all races, so give the drive your support.

## FOR SALE

A Johnson Outboard motor, 5 horsepower, in A-1 condition. Inquire of A. Smitten, 3 Beech Street, Long Beach 6-1369-M.

## A FINE GESTURE

Sal Castellano, genial proprietor of the Boulevard Market is giving a keg of beer for each trophy won by the Sea Gulls Tournament team. Something to work for boys.

## Help! Help!

A sandpiper flitting by the seas  
Catching insects and bees  
Had often been told,  
"Don't be so bold,  
Or the waves will pound  
And you'll be drowned."

II

But advice he never heard,  
As he was a perfect bird.  
So flew from the mariner's bell  
The distance he could not tell.  
But his wing got caught  
In a wreck in the port.

III

Being unable to fly,  
He chirped, "Good-bye."  
But she by the shore  
Heard him above the roar  
And without coat, plus or hat  
Swam to where he sat.

IV

Then she held him high  
Until he was quite dry.  
As he flew out of sight,  
He chirped back, "Alright."  
So you too lend a hand  
When ever you can.

## Lido Beach News

by Carolyn Gates

### TRIP TO OHIO . . .

A motor trip from Lido Beach to the Ohio River is now mostly a series of parkways and turnpikes, with all elevations of the terrain flattened by use of tunnels through the mountains. Beginning with our own Southern State Parkway, on to the Shore Drive around Brooklyn through the Battery tunnel with a short drive under the Hudson River Drive, to the Hudson tunnel, then on to the elevated drives through New Jersey until one reaches that romantic-sounding town of King of Prussia. Here one should stop at the Inn for refreshments, which are both good and inexpensive. The Inn itself is delightful. The walls are covered with huge paintings of various phases of the Life of Washington, while the windows are draped in red homespun. It is here that one first gets on the Pennsylvania Turnpike, and for 286 miles one rolls along between 60 and 70 miles an hour, sixty being the minimum, stopping every so often for refreshments at one of the Howard Johnson Restaurants that are spaced about twenty miles apart. After leaving the Turnpike, we hit a hill, or two around Wheeling, West Virginia, and Saint Clairsville, Ohio. The only bit of construction we encountered was at the tail end of our trip, between Cambridge and Zanesville. It was a wonderful trip both coming and going.

While there, I visited my mother, Mrs. J. J. Hill (who by the way sends her love to all her friends and acquaintances at Lido and Point Lookout). I was taken to several famous restaurants by my brothers and sisters, one of which was the Betsy Mills Hotel at Marietta, and another the Headley Inn on the west Pike on the way to Columbus, both over 100 years old, and well worth a visit. I can only say that I have never had a more delightful time.

While Frisky and I were renewing old acquaintances, Mr. Gates went on to Arkansas (Little Rock, Hot Springs and Eldorado) where the temperature once come down to 98 degrees.

Although the trip was wonderful and we enjoyed seeing the family we were all glad to get back to the cool breezes of Lido.

Jack Seaman has been on a three weeks business trip to California, going by plane first to Cincinnati, and then on to the coast. He reports a very successful trip. . . Saint Mary's of the Isle has been holding a bazaar both inside their large recreation building and in booths on the grounds. This was held July 26, 27 and 28 and will also be held August 2, 3 and 4. Our neighbor, Hans Baehler, has been making toys for this bazaar and some of them are quite remarkable pieces of handiwork. . . Mr. and Mrs. DeWitt Seaman spent some time with their daughter, Mrs. Helen Bertrand, of Wantagh. . . Mr. Harry Tietjan has been quite successful with his surf casting, keeping the Seamans supplied with king fish and also having plenty left for his own family. . . Mrs. Martha MacDonald, mother of Ranny MacDonald, suffered a nasty fall and sprained the ligaments in

her knee. We hope she is up and around very shortly. . . The Bierschens (father and son) are building a big home on Nantwick Street. . . Mr. and Mrs. Ed Bellis entertained the Lions Club of Bronxville on the 16th with a beach party of lobsters, steamers, clams, shrimp, clam chowder and water melon. As Monday was a beautiful day, they declared that the sun always shines for them. They were so enthusiastic that they wanted to make the affair monthly instead of annually. They went home sunburned and happy. . . Dr. Rubin Josell spent some time in Kalamazoo, Michigan, taking an orthodontia course. Son, Neil, is attending a boy scout camp at Wading River. . . Mr. and Mrs. Louis Gutterman had a delightful cocktail party on Saturday, June 23rd. . . Sam Nexsen, of Ocean Boulevard, has sold his house. He and Mrs. Nexsen entertained about 25 neighbors with a cocktail party and dinner on Sunday, July 15th. Everyone reports a grand time. . . Dr. and Mrs. Jesse Zizbor entertained with a large cocktail party on July 4th. . . Professor and Mrs. Jack Dandreaux spent their wedding anniversary at Lafayette, Indiana. John and Jewell Duffy spent a wonderful week-end at the Dandreaux's cottage while they were away. . . Mrs. Laurence Doriat, of Toledo, is visiting Mrs. Margaret Dalton of Cheltenham. . . Susy London entertained her small friends with a birthday party on Saturday, July 21st. She was four. . . A grass fire, which looked quite serious for a moment, broke out on Harrogate Street. The prompt action of the firemen from Point Lookout and the base soon put it out. . . Our lovely, vivacious Anna Haun celebrated her birthday Saturday, July 14th with a large party. The lawn was gaily decorated - the food delicious. Many happy returns of the day, Anna! . . . Parents feel much safer now that the police are on the alert for lost children on the beach. On Sunday, July 15th, a child was lost, turned over to the police, who went up and down the streets announcing that he was found and could be reached at the station house. Nothing like good police protection. Our thanks to our police force.

### ENGAGEMENT

## Advance Fund Offered U.S. to Save Jones Inlet

State, Nassau, Hempstead to Lay Out \$2,420,000, Wait to be Repaid Half

by Paul V. Beckley

New York State, Nassau County, and the Town of Hempstead, L.I., offered yesterday to advance \$2,420,000 to the Federal government to save Jones Inlet for navigation, the government to repay its share, \$120,000, without interest when the money becomes available.

The actual offer was made to the Senate Appropriations Committee yesterday by Rep. Leonard W. Hall, R., N.Y., who lives in Oyster Bay, L.I., on authorization of a letter signed by Robert Moses, president of the Long Island State Park Commission; J. Russell Sprague, county executive of Nassau and A. Holly Patterson, presiding supervisor of the Town of Hempstead.

Jones Inlet is a shifting, treacherous body of water, leading from Great South Bay to Atlantic Ocean and Long Beach. For many years its currents have been shifting westward, not only making the inlet increasingly shallow and hazardous for commercial and pleasure craft mooring in the bay, but threatening eventual destruction of the Village of Point Lookout.

### Beach Shrinking

Houses in that village which three years ago were separated by a quarter of a mile of beach from the ocean are now only a few feet from the surf. The land is building up on the east side of the inlet where Coast Guardsmen at the Short Beach Coast Guard Station now must walk across half a mile of beach to reach their boats.

In Washington, Mr. Hall explained that local authorities first tried to enlist the help of the national government in 1940 when hearings were held by the Army Engineers to determine the advisability of constructing a breakwater, jetty and sea wall to save the inlet.

The Army Engineers approved the project in 1941, Mr. Hall said, but it was not until 1945 that it was included in the rivers and harbors bill. Last year the Senate committee on public works recommended appropriation of \$500,000 to begin the project, but this appropriation was eliminated along with many other civilian projects when the Korean War broke out.

### Hesitates to Accept

Col. W. E. Potter, of the Army Engineers, said in Washington he hesitates to accept the advance of \$2,420,000 offered by New York, Nassau and Hempstead without a token appropriation by Congress to indicate governmental approval. With such a token appropriation, even if only \$50,000, Col. Potter said, the engineers could begin the project.

Mr. Hall said he hoped the Senate would see fit to include such an appropriation in the rivers and harbors bill this year, following the precedent it adopted last year in recommending appropriation of \$500,000. Until the Senate does so, he said, it seemed unlikely the government would accept the offer of New York, Nassau and Hempstead.

## A Party for Young Teen-Agers

On Wednesday, July 11th our young folks between the ages of 11 - 15 spent a wonderful evening at the Fire Hall. Under the expert guidance and planning of Nellie Barry, they danced to the music of a very talented three piece orchestra, drank 'Pepsi', ate cake and ice cream and thoroughly enjoyed themselves. Each paid fifty cents admission, but this sum collected was not used for the expenses of the evening. As many of our readers will remember, Nellie and her friends staged a super-duper masquerade party last summer and after all accounts had been settled a balance of some \$160 remained. Nellie turned this amount over to the Young Peoples Club for future activities. On July 11th a portion of the balance was used and the remainder was added to the admission collected for future entertainments. There were a number of mothers and a couple of Daddies who came along to help Nellie and among those were Mesdames Buckley, Algozer, Aaron, Cipilino, Muldoon, Lewis, DeFalco, Vail and Mellon with Judge DiFalco and Mrs. Buckley representing the men. This party provided so much fun for the youngsters that we hope these and other mothers will plan for another one very soon. We feel, too, that the Fire Company benefited in a measure for a donation of \$15 was made in thanks for the Hall which was thoroughly cleaned after the young ones departed.

WE HEAR RUMORS OF PLANS BEING MADE FOR ANOTHER MASQUERADE . . . ALL ADULTS INTERESTED CONTACT NELLIE BARRY OR BILLIE WALSH.

## Ladies Guild Notes

On Tuesday afternoon, July 3rd, Mrs. Hilda Verzagt entertained at a luncheon and bridge for the benefit of the Ladies Guild. Tables were set up in the beautiful garden at 72 Baldwin Avenue and a delicious luncheon was served to a large group. Prizes were awarded to the winner at each table. It was a pleasure to have Mrs. Mahr and Mrs. Zinn with us again.

At the July 3rd meeting a new slate of officers was elected and installed. President Mrs. Arthur Smitten Vice President Mrs. Harold Gates Recording Secretary Mrs. Mary Miller Treasurer Mrs. Andrew Kunz Cor. Secretary Mrs. Thomas Candlyn Chm. of Welfare Mrs. Ada Baiter  
On Saturday, July 7th, the Annual Card Party was held at the Community Church Hall. As usual a record crowd turned out and all had a good time. Once again our generous merchants and friends contributed prizes. At the end of the evening delicious refreshments were served.

The president would like to take this opportunity to express her appreciation for the splendid cooperation of the committee headed by Mrs. Baiter, and all who worked so ardently for the success of this affair. We are indebted to the following for their gifts: Oasis Restaurant, Pt. Lookout Liquor Store, Joe Ritter's Service Station, Al Pavlick, Stanley Whyte, Julie Miller, Peter Mazzie, Robert Doxsee, Point Lookout Market, Laskas Florist, Mrs. Ahertz and to Weigand Funeral Parlor of Baldwin for the use of their chairs, and to Perry Funeral Parlor of Lynbrook for tallies and score cards.

The next important meeting date on our program is the annual Bazaar, scheduled for August 10th and 11th at the Church Grounds. This will be a regular old-fashioned county fair with plenty of attractive features for young and old.

Now that the new season is underway, the regular meeting of the Guild is held at 8:30 every Tuesday evening in the lower room of the Community Hall. A social hour of cards follows the business meeting. We invite all the ladies of the community to join us and have a part in the great work we are undertaking.

## Handicraft News

We are going to hold two meetings a week for the convenience of those who cannot come on Wednesdays. Monday nights has been chosen temporarily as our other meeting night. We were ever-so-glad to say "Hello" to Elinor Grant last week. She had been ill since July 4th when her young son wandered from home, lost for several hours, and found safe and sound by a member of our Fire Company.

Stanley Smitten's boat required (please note past tense) as much attention as an infant for a few days. The story is he put it in the water without first sealing the seams and had to go down every three hours and bail it out.

Why don't you come over some Monday or Wednesday evenings and make something. I'm sure you would enjoy it.

—Pat Larney

## Fourth of July

A few observations. John MacDonald's granddaughter led the parade was a plucky majorette for the entire distance. She looked grand.

The band, on account of the tremendous crowd trying to get into Hempstead Town Park, got headed in that direction, and had to be rescued by our Fire Company. The line of cars reached several miles down Lido Blvd. Ice cream delivery for the youngsters was delayed by the very heavy traffic, but fortunately arrived in time.

Fourth of July was a very happy day for George Howard, because he brought Marion home from the hospital, where she had been following a rather severe automobile accident. We are happy to report on her complete recovery. Michael became Daddy's boy while she was away, and Terry, the dog, wouldn't eat, he missed her so.

How many children are there at the Point? A seemingly never-ending line filed by for refreshments, and while we suspect some tried to double up, the crowd was very orderly.

The buffet lunch was quickly eaten by the visiting firemen, and the soft drink bar took an awful beating.

Dot Sternberg, our talented singer was in excellent voice. She never sang better. Bob Doxsee made a most impressive speech, which we wish we had recorded so as to publish it in the paper. Joe Scully handled his job with his usual efficiency and tact.

## Testimonial Dinner

A well-deserved testimonial dinner was tendered to Ex-Chief Jack Rantsche and Ex-Deputy Chief John MacDonald, Jr., at the fire hall on the evening of June 23rd.

The affair was very well attended by members and friends of the two men, both of whom have moved from our midst, and Joe Scully handled the affair in his inimitable manner. "Red" MacDonald will be seen among us frequently, but Jack and Ann Rantsche probably will not return until next summer, as they are making their home in Florida.

## NANCY LYNN HAMMOND

It's quite possible that in a couple of years we'll be having another pretty little red-headed girl toddling down to the beach from the Kennedy's home on Garden City Avenue for Gloria Kennedy Hammond is the mother of Nancy Lynn who was born on July 2nd and weighed a perfect 7 pounds 4 ounces. Of course her grandparents (who certainly don't look the part) Florence and Reg Kennedy are very, very proud of their first grand child and as for the young teen-age girls of the neighborhood . . . well, they just never saw such a cute baby. Altho' her parents aren't quite sure, her mother told us that she thought there was a distinct possibility that Nancy Lynn's hair will be red. It may be that this very young lady will take a trip to California next year to be properly introduced to her great grandmother who is living in San Mateo with the Arthur Rosenthal's, her great aunt and uncle formerly of Cedarhurst Avenue. We know that Carol and Dorothy Rosenthal are mighty anxious to meet this sweet baby too.

## A Golden Voice

It is nothing new to have famous and prominent people living here at the Point. Miss Irene Kramarich, a native of Youngstown, Ohio, where she achieved high success as a singer in musical shows, radio and church work, is spending the summer here at the Point. Last May, in New York City, Miss Kramarich was the winner over seventy-two contestants in the radio program, "Stars of Tomorrow". A year ago she came to New York determined to study Grand Opera. Who is her teacher? None other than our own Maestro Menotti Salta. Miss Kramarich has a magnificent mezzo-soprano voice and has been delighting all those who hear her daily as she studies at Maestro Salta's residence.

With her charming personality, with the help of such a conscientious and prominent teacher, with the gift of her golden voice, a bright future is assured. Best wishes to you, Miss Kramarich, from all your friends here at the Point and from the Community Outlook.

## Surprise for Mrs. Baiter

July 14th was Happy Birthday for Ada Baiter. After a delicious dinner with her two daughters, Dorothy and Ruth, her brother and sister-in-law, Mr. and Mrs. Russel, and grandson, Gordon, she returned home to find a number of friends there to greet her with 'Surprise - Happy Birthday'. The guests were Mesdames Antanasio, Straus, Sherman, Gitchell and Schoenfeld, the latter also with a July birthday which was celebrated later in the week with her two cute grandchildren assuming responsibility for the family party.

After a lively session of bridge, Mrs. Baiter's daughters served one of the most beautiful ice cream birthday cakes the guests have ever seen. One and all agreed it was a lovely party and lots of fun.

## Independence Day

It was a beautiful Fourth of July, and the roads to the Town Park were blocked with cars. Here at the Point the fiemen, the Brownie Scouts and apparatus from neighboring towns formed a parade, headed by John MacDonald's little granddaughter dressed as a majorette. And cute she was.

Accompanied by a band, the parade followed the usual route back to the Fire Hall where appropriate exercises were held. Bob Doxsee made a particularly effective speech, and Dorothy Sternberg sang as beautifully as always. The band played, then adjourned inside for refreshments.

Finally the big event of the day for the children was the distribution of refreshments. Starting at the front door, they were restrained by willing workers, but by the time the last were let into the hall, the crowd of youngsters was down to the platform.

It was a most fitting way to celebrate this National holiday, and all credit goes to those who arranged and participated in the event.

## BIRTHDAY

Mrs. Eddie Olender celebrated her birthday on Friday, July 20th.

## Unlearned

Once when mother was duty bound  
I, a box of matches found.  
And not knowing the smell of gas,  
I lit them quick and fast.

II

Then the trouble did begin  
As walls and ceilings just fell in.  
And I, an awful mess,  
Bleeding, was covered with the rest.

III

While my eyes hurt me so,  
I really could not see, you know.  
The firemen were then called out,  
And spread their hose about.

IV

Then all the neighbors came  
Wondering who was to blame.  
As the bandaged for fair,  
It took yards and yards, I declare.

V

And when the damage was all done,  
The victory the fire had won,  
Took all Dad ever owned,  
Though he never moaned or groaned.

VI

Though both were deep in debt,  
As the doctor's bills they met,  
But all they said to me  
Was, "Thank God, Sonny, you can see."

—Anna F. Stanley

## Cerebral Palsy Luncheon Cab Calloway's Lobster Yard

Tuesday, July 24th, Cab Calloway's Lobster Yard was the scene of a festive luncheon and card party sponsored by the Long Beach Chapter for Cerebral Palsy. Mrs. Martin Stern, hostess for the afternoon, said the tickets were \$2.50 per person, there were exciting surprises, and promised a very pleasant afternoon with good food, pleasant surroundings.

Proceeds from the luncheon will go towards the \$10,000.00 goal, which has been set by the Chapter for the present campaign. Monies raised during the present drive will be used for the clinic being erected at Roosevelt, L.I. At the clinic children suffering from cerebral palsy will receive remedial medical, therapeutic, and educational treatment.

On Wednesday, July 18th, Mrs. Michael Littman, of 20 Blackheath Road, Lido, gave a luncheon for forty ladies as the opening gun in a membership drive being started by the Long Beach Chapter for Cerebral Palsy.

The Long Beach Chapter has grown by leaps and bounds since its inception one year ago with just twelve members. Since last year its membership has increased to 148, its many and varied activities have tripled, and its assistance to children afflicted with cerebral palsy has been its constant aim.

Wednesday, July 18th, promised to be a very pleasant afternoon, and the Long Beach Chapter looked forward to warmly welcoming new members.

## Going South

How do ducks remember  
The cool month of November?  
Then Mr. Duck to his mate  
Said, "Let's away, it's a date."

II

So high did they fly  
Above the clouds of the sky,  
When the sun went down  
They circled to the ground.

III

They were tired and happy too  
For they had more flying to do;  
And knew he would take aim  
To bring back his game.

IV

Then bang went the gun  
And Mr. know what was done  
As he dived too late  
But saved his mate.

V

"Go as the wind blows",  
Said he firm and low,  
And she left him high and dry  
On the sand to die.

VI

Birds who live on the wing  
Make us happy while they sing.  
They have no shelter but the trees  
No guide post but the breeze.

VII

They ask that you intercede  
With gunners on the mead.  
Woods without a bird  
You have never heard.

VIII

So listen and learn their songs,  
And with Mendelssohn belong,  
To the great ones of the earth,  
That to eternal art gave birth.

— Anna F. Stanley

## *To All Our Friends And Neighbors:*

PLEASE PLAN NOW TO BE AT THE POINT FOR SATURDAY EVENING, OCTOBER 13th, 1951.

ON THAT EVENING WE PLAN TO HAVE A MOST ENJOYABLE TIME — JUST AS WE HAD EACH YEAR FOR THE PAST FOUR YEARS.

DANCING — FINE MUSIC — VALUABLE PRIZES — AND THE DELIGHTFUL COMPANY OF GOOD FRIENDS.
